MZUZU UNIVERSITY

FACULTY OF SCIENCE, TECHNOLOGY AND INNOVATION

DEPARTMENT OF INFORMATION AND COMMUNICATION TECHNOLOGY

1. **PROGRAMME**	:	Bachelor of Science
2. **SUBJECT**	:	Information and Communication Technology
3. **LEVEL OF STUDY**	:	1
4. **COURSE TITLE**	:	End User Computing
5. **COURSE CODE**	:	BICT 1101
6. **DURATION**	:	16 Weeks
7. **PRESENTED TO**	:	Senate
8. **PRESENTED BY**	:	Dean of Science, Technology and Innovation
9. **LECTURE HRS PER WEEK**	:	4
10. **TUTORIAL HRS PER WEEK**	:	2
11. **PRACTICAL HOURS**	:	1
12. **INDEPENDENT LEARNING HRS PER WEEK**	:	9
13. **TOTAL COURSE CREDITS**	:	13
14. **PRE-REQUISITE COURSE CODES(S)**:		None
15. **CO-REQUISITE COURSE CODES(S)** :		None
16. **DELIVERY METHODS**:		
16.1 Mode of Delivery	:	Face- to Face
16.2 Teaching Methods	:	Lectures, tutorials and practical
17. **ASSESSMENT METHODS**	:	Lab practical, assignments, mid semester exams, final exam

18. **ASSESSMENT WEIGHTING** : 40% Continuous assignment

60% End of semester examination

19. **COURSE DESCRIPTION** : This course introduces students to information and communication technology in a business environment and builds a foundation of digital literacy skills necessary for success in a technologically driven society. Students will develop word processing, spreadsheet, database, desktop publishing, presentation software, and website design skills. Throughout the course, there is an emphasis on digital literacy, effective electronic research and communication skills, current issues related to the impact of information and communication technology. Students also learn how to use the computer to communicate with others and how to use the Internet and the World Wide Web.

20. **AIM(S) OF THE COURSE** : To introduce students to computer skills.

21. **LEARNING OUTCOMES**:

A successful learner from this course will be able to:

- Operate a personal computer running MS Windows and/or Linux.
- create documents using a word processing application
- produce documents using a spreadsheet application
- create presentation using a presentation application
- build databases using a database application
- find information on the web using search engines
- send and receive electronic mail

22. **TOPICS OF STUDY**

Using the computer and managing files

- Getting started with Windows and Linux
- Menus, commands and dialogue boxes
- The start Menu and Taskbar
- Working with folders
- Working with files
- Windows and Linux applications
- Customizing the Desktop
- Printing

Word processing

- Creating documents
- Editing documents
- Formatting documents
- Proofing tools
- Document layout
- Tables
- Mail merge
- Graphics
- Working with other applications

The Internet and World Wide Web

- Role of the Internet as a source of information
- Getting started with Web browsers
- Browsing the World Wide Web
- Security on the Web
- Searching for information on the Web
- Working offline and downloading files
- Net-etiquette

Electronic mail

- Conventional and web based E-mail systems
- Configuration of mail clients
- Sending and receiving Emails
- Email attachments
- Organising an address book

Spreadsheets

- Creating workbooks
- Entering basic calculations

- Formatting the worksheet
- Structuring the worksheet
- Working with multiple sheets
- Charts and graphs
- Using spreadsheets with other applications

Presentations

- Creating presentations
- Formatting presentations
- Editing the slide master
- Inserting graphics
- Organisation chart
- Running a slide show
- Design Template
- Integration with other applications

Databases

- Introduction to Databases
- Creating tables
- Primary and secondary keys
- Entering data in a table
- Viewing and editing data
- Create queries
- Create forms and reports

23. **PRESCRIBED TEXTS**

Habraken, J. (2015). *Office 2016 In Depth* (1st ed.). Que Publishing.

Williams, B.K., et al. (2014). *Using Information Technology; a practical introduction to computers and communications* (11th ed.). Boston, M.A.: Irwin McGraw-Hill.

24. **RECOMMENDED TEXTS:**

White, C.M. (2013). *Data Communications and Computer Networks: A Business User's Approach* (7th ed.). US: Cengage learning.

Andrews J. (2014). *Managing and maintaining your PC* (8th ed.). Canada: Thomson Course Technology.

This syllabus was approved by Senate on 24th August 2016
