EXCEL EXERSISES

SESSION I

ENTERING TEXT

Enter the following text

	A	B	C	D
1	Income Statement			
2	1st Quarter, 1994			
3				
4				
5	Total Revenue			
6	Total Expenses			
7				
8	Net Income			
9				

ENTERING DATES

Enter the dates in cells C3, D3, and E3 as shown below.

	A	B	C	D	E	F
1	Income Statement					
2	1st Quarter, 1994					
3			Jan-94	Feb-94	Mar-94	
4						
5	Total Revenue					
6	Total Expenses					
7						
8	Net Income					
9						

ENTERING NUMBERS

Enter the numbers in cells C5, D5, and E5 as shown below.

	A	B	C	D	E	F
1	Income Statement					
2	1st Quarter, 1994					
3			Jan-94	Feb-94	Mar-94	
4						
5	Total Revenue		10000	12000	11000	
6	Total Expenses					
7						
8	Net Income					
9						

ENTERING FORMULAS

Calculate Total Expenses as 60% of Total Revenue. Perform the following steps:

1. Move to cell C6
2. Type: =c5*60%
3. Press ENTER
4. Move to cell D6
5. Type: =d5*60%
6. Press ENTER
7. Move to cell E6
8. Type: =e5*60%
9. Press ENTER

Your spreadsheet should look like the one shown below.

	A	B	C	D	E
1	Income Statement				
2	1st Quarter, 1994				
3			Jan-94	Feb-94	Mar-94
4					
5	Total Revenue		10000	12000	11000
6	Total Expenses		6000	7200	6600
7					
8	Net Income				
9					

Now create a second formula to subtract Total Expenses from Total Revenue to give you Net income.

Perform the following steps:

1. Move to cell C8
2. Type: =
3. Click: cell C5
4. Type: -
5. Click cell C6
6. Press ENTER
7. Repeat the process for cells D8 and E8

Your worksheet should appear similar to the one shown below.

	A	B	C	D	E
1	Income Statement				
2	1st Quarter, 1994				
3			Jan-94	Feb-94	Mar-94
4					
5	Total Revenue		10000	12000	11000
6	Total Expenses		6000	7200	6600
7					
8	Net Income		4000	4800	4400
9					

EDITING A CELL

Edit the information in the worksheet so that it appears similar to the one shown below.

	A	B	C	D	E
1	Profit/Loss Report				
2	2nd Quarter, 1994				
3			Jan-94	Feb-94	Mar-94
4					
5	Total Sales		10000	12000	11000
6	Total Expenses		6000	7200	6600
7					
8	Net Income		4000	4800	4400

ERASING A CELL

To erase a cell's contents, highlight the cell and press the DELETE key or choose **Edit**, **Clear** from the menu. The clear dialog box appears. Make a selection from the dialog box and press ENTER or click OK command button.

USING THE UNDO COMMAND

The **Undo Command** allows you to cancel the last command you performed in the worksheet. To undo an action, select the **Edit** option from the menu and then choose the **Undo** command, or press the shortcut key combination of **Ctrl + z.**

HANDS-ON

1. Production of a worksheet to help manage your personal credit card limits and balances.

MOVING CELL POINTER

Move the cell pointer to the following cells: (a) A21, (b) K50, (c) IV50, (d) IV16384, (e) AA1000, (f) A1

ENTERING TEXT

a. With your cell pointer in cell A!:
   Type: PERSONAL FINANCIAL PLANNER
   Press ENTER

b. Enter the following text labels

Move to cell	TYPE:
C3	Budget
D3	Actual
A6	VISA
A7	Chevron
A8	AMEX
A9	M/C

c. Enter the following numbers:

Move to cell	TYPE:
C6	1200
C7	500
C8	200
C9	75
D6	1200
D7	450
D8	215
D9	135

d. Change the label in cell A6 from “VISA” to “Discover” by typing over the existing entry.

e. Change the label in cell A8 from “AMEX” to “AMEX Gold” using the mouse to edit the text in the Formula bar.

f. Change the label in cell A9 from “M/C” to “Mastercard” using the keyboard and the F2 key.

g. Change the budget value for Chevron in cell C7 to 400

h. Reverse the change in the last step by choosing the **edit, Undo** command from the menu.

i. Change the Actual value for AMEX Gold in cell D8 to 210.

j. Reverse the change in the last step by **Ctlr+z**.

Your worksheet should appear similar to the one shown below.

	A	B	C	D	E
1	PERSONAL FINANCIAL PLANNER				
2					
3			Budget	Actual	
4					
5					
6	Discover		1200	1200	
7	Chevron		500	450	
8	AMEX Gold		200	215	
9	Mastercard		75	135	
10					

ENTERING FORMULAS

Use the worksheet created in the last exercise.

a) Move to cell A11.
b) Type: Total Balances
c) Enter a formula to sum the budgeted values in column C by typing the formula. Place the result in cell C11.
d) Enter a formula to sum the actual values in column D by clicking on the cell references using the mouse. Place the result in cell D11.
e) Move to cell E3.
f) Type: Variance
g) Enter a formula to subtract the actual Discover card balance from the budgeted value. Place the result in cell E7.
h) Enter formulas to calculate the variance for the remaining cards.
i) Enter a formula to calculate the variance for the Total Balances.

Your worksheet should appear similar to the one shown below.

	A	B	C	D	E
1	PERSONAL FINANCIAL PLANNER				
2					
3			Budget	Actual	Variance
4					
5					
6	Discover		1200	1200	0
7	Chevron		500	450	50
8	AMEX Gold		200	215	-15
9	Mastercard		75	135	-60
10					
11	Total Balances		1975	2000	-25
12					

FURTHER PRACTICE

ENTERING TEXT, NUMBERS, AND FORMULAS

(a) With your cell pointer in cell A15:
Type: National Sales Contest
Press ENTER

(b) Enter the following text labels:

Move to cell	TYPE:
C17	Units Sold
A18	Craig
A19	Andrea
A20	Maria
A22	Total Units

(c) Enter the following numbers:

Move to cell	TYPE:
C18	30
C19	55
C20	42

(d) Enter a formula to sum the units sold. Place the result of the formula in cell C22.
(e) Move to cell D18.
(f) Enter a formula to calculate each sales person's share of the total units sold. In other words, divide the number of units sold for each salesperson by the total units sold.
(g) Enter a formula to sum the percentage shares. Place the result of the formula in cell D22 and ensure that it adds up to 1.
(h) Save the changes.

Your worksheet should appear similar to the one shown below.

	A	B	C	D	E	F
1	PERSONAL FINANCIAL PLANNER					
2						
3			Budget	Actual	Variance	
4						
5						
6	Discover		1200	1200	0	
7	Chevron		500	450	50	
8	AMEX Gold		200	215	-15	
9	Mastercard		75	135	-60	
10						
11	Total Balances		1975	2000	-25	
12						
13						
14						
15	National Sales Contest					
16						
17			Units Sold			
18	Craig		30	0.23622		
19	Andrea		55	0.433071		
20	Maria		42	0.330709		
21						
22	Total Units		127	1		
23
