1. Launch Microsoft Excel. Create a **spreadsheet** and enter data as shown below including all the formatting. Save your workbook as **Shop**.

	A	B	C	D	E
1	Khumbo Investments				
2					
3	**Shop Owner:**	*Type your Registration Number here*		Commission Rate:	
4				5%	
5					
6	**Item No**	**Selling Price**	**Cost Price**	**Commission**	**Any Profit?**
7	001	MWK 4,500.00	MWK 4,000.00		
8	002	MWK 500.00	MWK 550.00		
9	003	MWK 9,000.00	MWK 1,000.00		
10	004	MWK 1,500.00	MWK 2,200.00		
11	005	MWK 5,000.00	MWK 6,000.00		
12					
13	**Average**				
14	**Highest**				
15	**Lowest**				
16					

2. Type your Registration Number in cell B3.

3. Insert formulae to calculate the average, highest and lowest Cost Price, in cells C13, C14 and C15 respectively. Replicate the formulae in cells B13, B14 and B15.

4. Calculate the commission on each item using the formula **Commission = Selling Price *Commission rate**. The commission rate is found in cell D4. Use absolute referencing in your calculation.

5. Use the **IF function** in cells E7 to E11 to indicate if there was profit on each item given that **Profit = Selling Price – Cost Price.** Output values should be Yes or No.

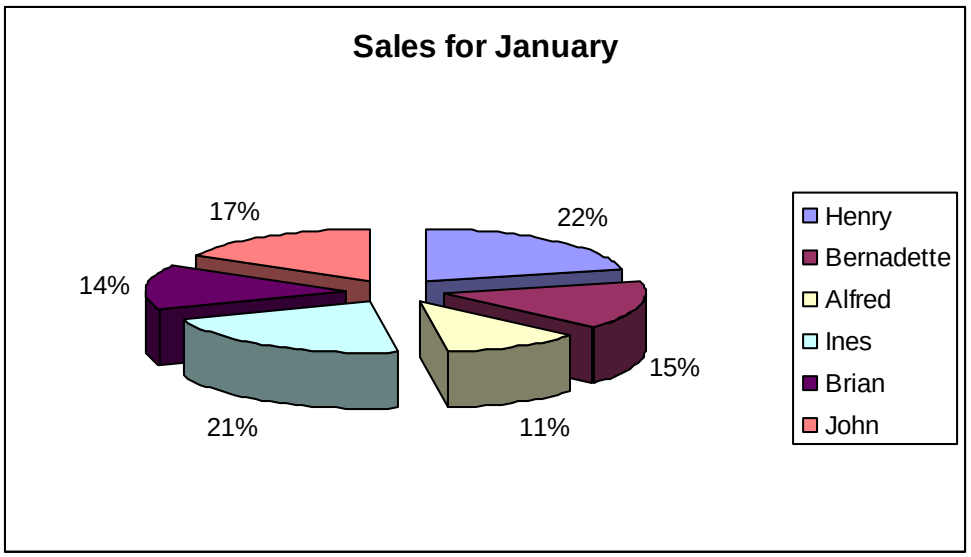

6. Rename Sheet1 to Shop. Save your spreadsheet.

7. Create another **spreadsheet** on Sheet2 and enter data as shown below:

	A	B	C	D	E	F	G	H
1			Mangochi Fish Co					
2								
3			Sales for 2004					
4	**Salesperson**	**January**	**February**	**March**	**April**	**May**	**AVERAGE**	**TOTAL**
5	Henry	$2,340.00	$2,170.00	$3,000.00	$1,890.00	$2,140.00		
6	Bernadette	$1,670.00	$1,920.00	$2,540.00	$2,540.00	$3,180.00		
7	Alfred	$1,230.00	$1,780.00	$2,120.00	$2,120.00	$3,020.00		
8	Ines	$2,320.00	$1,560.00	$2,410.00	$2,450.00	$2,980.00		
9	Brian	$1,560.00	$1,990.00	$2,320.00	$2,490.00	$2,220.00		
10	John	$1,840.00	$2,160.00	$2,220.00	$2,310.00	$2,160.00		
11	**TOTAL**							

8. Enter formulae in the appropriate cells to calculate totals and averages for the figures given in the spreadsheet.

9. Create a graph from the figures. The graph should look like the one shown below:

10. Rename Sheet2 to **Sales.**
