MZUZU UNIVERSITY

FACULTY OF SCIENCE, TECHNOLOGY AND INNOVATION

DEPARTMENT OF INFORMATION AND COMMUNICATION TECHNOLOGY

BACHELOR OF SCIENCE IN INFORMATION AND COMMUNICATION TECHNOLOGY

END OF SEMESTER EXAMINATION

ICT 1101: END USER COMPUTING

TIME ALLOWED: 3 HRS **DATE : August, 2018**

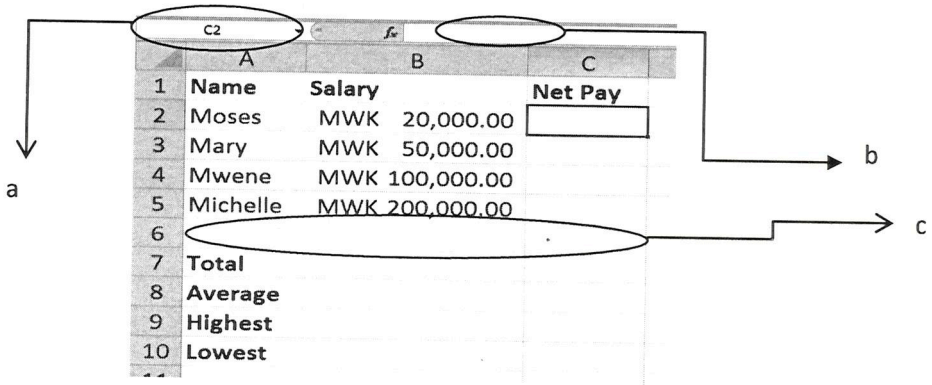

INSTRUCTIONS

i. This paper contains **THREE** pages. Please check.

ii. Answer **ALL** questions.

iii. Marks for each question are indicated.

1. Below is a screenshot of a certain Microsoft program. Answer the questions that follow:

a. Which Microsoft program is this and what is it used for? **(1 mark)**

b. Label and explain the uses of parts **a – c** shown in the diagram. **(6 marks)**

c. In cell B7, insert a formula to calculate the **total** amount of salary being paid to all these people. **(2 marks)**

d. In cell B8, insert a formula to calculate the **average** salary being paid to these people. **(2 marks)**

e. In cell B9, insert a formula to calculate the **highest** salary being paid to these people. **(2 marks)**

f. In cell B10, insert a formula to calculate the **lowest** salary being paid to these people. **(2 marks)**

g. In cell C2, insert a formula to calculate the **net pay** for Moses after tax has been deducted according to the following tax scheme: **(5 marks)**

Salary	Tax
Less than MWK 50,000	10%
MWK 50,000→MWK 200,000	15%
Above MWK 200,000	30%

Note: this formula will be copied, using the Auto fill handle, for the other people as well.

2. Computers have simplified our lives in a very great way.

   a. Explain the difference between input and output devices. **(2 marks)**

   b. Melissa wants to type a letter on a desktop computer in the ICT LAB and she will have to send the hard copy to her friend after printing it at a printing shop. List ALL computer hardware that she MUST use for this to be achieved. Explain the use and the category of each computer hardware that you mention.

   (15 marks)

   c. She has also decided to send the letter as an attachment via email. Explain, step-by-step, how she can achieve this, assuming that Melissa already has a GMAIL account and the ICT LAB has internet connection. **(8 marks)**

3. Nowadays, internet has also become inseparable from our lives.

   a. Mention any **FOUR** uses of the internet in our daily lives. **(4 marks)**

   b. Explain the uses of the following in a web browser like Internet Explorer:

      i. Address bar. **(2 marks)**

      ii. Back button. **(2 marks)**

      iii. Refresh. **(2 marks)**

   c. Joseph wants to make a presentation about the internet as shown below:

i. Explain any **THREE** sections of this Microsoft PowerPoint window shown above. **(6 marks)**

ii. Mention any **THREE** ways that Joseph can use to add new slides to this presentation. **(3 marks)**

iii. To make his presentation more interesting, Joseph will also add transitions, with sound effects, to all his slides that should last 3 seconds. Explain how he can achieve this. **(6 marks)**

4. Wadson is writing a Microsoft Word document about Microsoft Access, which is a database software package.

   a. What is a database? **(2 marks)**

   b. Explain any **FOUR** objects available in Microsoft Access. **(8 marks)**

   c. Explain the following terms as used in Access:

      i. Primary key. **(2 marks)**

      ii. Foreign key. **(2 marks)**

      iii. Validation Rule. **(2 marks)**

   d. Wadson will need to apply a background colour of green to her word document. Explain how she can achieve this. **(8 marks)**

   e. Explain any **THREE** views available in Microsoft Word. **(6 marks)**

END OF QUESTION PAPER
